Cops taking selfies with patriots. The air force veteran getting shot. Does anybody have video evidence of people carrying away laptops??? Or hard drives?

Is there really a evidence that Antifa was involved ? I mean that viking guy is really a Qtard and a Trump supporter. He was on BLM protest, but that is not evidence of being anti Trump.

Strong cities network. For governors private army's not under constitutional law End of local policing 2016!

Boiled down to its essence, the SCN is actually a new law-enforcement body whose laws will govern participating cities, including New York, Atlanta, Denver, and Minneapolis, that have already signed on as members. Law-enforcement measures for these cities will dovetail with or emanate from the Institute for Strategic Dialogue and the United Nations, not from the U.S. Constitution and locally elected officials and the laws governing them. In her remarks at the unveiling of this new organization, Attorney General Lynch claimed that the new arrangement would work toward being "an alliance of nations" and would aspire to be "a global community."

The Strong Cities Network, therefore, should be known as a nascent global police force controlled by the United Nations. Where central or global authority doesn't govern police power, it is controlled locally. When it is controlled by a national or international governing body, as it was in the hands of Germany's Gestapo, the Soviet Union's KGB, or the ruling body in a communist-led country, tyranny reigns.

Andy Ngo's contribution really helped me feel confident in the evidence. That man knows his antifa. It's true he doesn't mention the buffalo guy. That guy is a maybe in my book, but the fellow on cnn and the guy I watched interviewed, definitely antifa.

When I watched live I thought 5% antifa at the head, but now I'm wondering if any patriots made it on "time" for curtain call.

My only problem with blaming the agitators solely on antifa, is it's not true.

The air force vet ashli was antifa?

The old couple I met on the metro were antifa?

Nah. We should own it. Was antifa there? Probably, but to think that patriots weren't in the Capitol as some of your sources say simply isn't true.

Now we were absolutely let in and it stinks to high heaven, but I'm not sure anyone has a true grasp of just what exactly went down that day.

I watched live, and recorded him being interviewed on a liberal rag. The back wards cap (antifaSymbol) and lack of blood after “catching the woman who got shot” and “we were lead out by the riot cops” tipped me off pretty good. Seeing him in the background of photo evidence from Andy Ngo with the Antifa and a mask a day later was enough for me.

Not enough for me, he has a Trump hat on and no antifa symbols. But i must admit, i wanted those traitors from GOP hanged, so i dont mind invading DC capitol at all. But Trump said peacefull protest and always calm things down, so i am calm now. We must fight these commies with memes, satire and with waking people up.

No one wears backwards Trump hats. Its unheard of. Pretty sure Leon from Curb your enthusiasm made that joke in the trump hat episode.

Backwards trump hat is a signal for how antifa/anti-trumpers identify themselves. They walk out with the hat backwards until someone collects them. They fix the hat, then begin looking for others who havent been picked up yet and have the hats backwards. The backwards hats are so your friends can find you, not you them.

Whoa i just saw a video about a guy in Birmingham in the UK that says he received a ticket from a cop for something he didnt do and the whole encounter seemed suspicious.

When he went to follow the instructions on how to pay the ticket it took him to a private website called "ACRO" (Criminal Records Office), not the government or anything like that. He looked into ACRO and it ended up being owned by someone called CPOSA Ltd. Tax records show they made 1.8m last year writing these bogus tickets. Its weird. No surprise theyre doing a global rollout of this. Mixing the power of private and public sectors into one new beast. The Build Back Better world.

That seems divinely on topic.

I think, when patriots protest against black clad riot wrapped police, and yell “oath breakers” at them, that the people being yelled at didn't Actually make any oath to the constitution. The thought saddened me, but the reality emboldens my commitment for what is necessary. For what may be ahead.

This was always their plan to label us this way. It is the only way to mass persecute us and have some kind of cover. It is what they have to do to cover up all their crimes. Let's have faith that Trump is on it and do our parts to wake everyone up and DEMAND action is taken by sheer numbers of people talking about it and spreading the truth. That way when Antifa / BLM riot after Trump takes out the baddies as many people as possible will know the truth and not get caught up when Antifa / BLM get taken out via Insurrection Act. You have to take out their masters before you can take them out. That is why we have not seen anything thus far, have to get the kill shot at the right place and time. Have faith, if Trump fails, THEN we rise and there is no other way about it. Make no mistake, the Rubicon HAS been crossed, only two ways out now and gun grabs with reeducation camps is NOT one of the options.

I find the term "QTard" To be an ignorant gas light. You label yourself using it. The left hates the concept of Q and defames it. Do you trust the left? Or appreciate those who question realities?

When I hear the lib rag say Qanan is a conspiracy theory of satanic peoples running the world. I hear an attempt to make the truth sounds ridiculous, especially when they add in the lizard people part. "There aren't pedophile lizards you are crazy!"

Lumping in all doubters, decentors and questioners into one group and insulting them is opposite of encouraging open dialogue and free speech. Retarded ideas will see Truth weed then out, when allowed.

I have personally met and spoken with the Viking guy. He's just a bleeding heart for Q stuff if he is Antifa they are way way way more conniving and dedicated than previously thought. Honestly he seems like a ragnarok new age guy x1000 but he was doing honest work trying to red pill everyone at a rally like individually.

Problem was he was dressed as a fucking Viking. I wanted to tell him to just be normal people may listen more. May have been on the spectrum or at least socially odd.

He wasn't shilling an Instagram or anything either so take that as you will. He may have been there to paint us all as crazy which is what I initially thought but he actually spent like hours with us waiting in line detailing all the cabal stuff to boomers which was...eye opening. So so many supporters have zero knowledge of the level of corruption we are actually dealing with.

Calling 1 million Patriots clearly storming the capital a false flag severely handicaps the day and abdicates to the CNN narrative of it having been unjustified. Any violence is absolutely unjustified on all sides, always but the left has been fine with it for years now. It also paints us as fools.

But to pretend us finally doing what the left has done for me over 4 years is worse than Pearl Harbor is insane and backpedaling and scapegoating antifa is a cop out. Saying we were too hot headed sure, saying we are saints and it was only antifa who are “bad” or make mistakes, is delusional.

There's video of the military inside. I'll copy and paste my reply to someone else about it:

Because I saw them (I was in the Capital). One of the teams was captured on this video....

Go to <https://banned.video/watch?id=5ff6857e00bac0328da8e888> Forward it to the 28 minute mark.

Pay attention to the two guys in camo with the gas masks. Everyone there is excited, looking around, taking vid/photos...not these two guys. Pay attention to them. They briefly talk to each other, then they move towards Pelosi's office with intent. They're not looking around, they're not taking vid/pics, they're not exhibiting any excitement about being there. They're on a mission.

In the one chamber I was in, I saw two of the same guys (not the actual same guys, but wearing camo and gas masks). Again, everyone in there was excited, gawking around, taking vid/pics, except those two guys. They stood side by side, heads forward, not moving at all (they were like fucking statues), just waiting for the police to allow us to move forward from that chamber. At the time, it did strike me as very odd, but I didn't know what to make of it. They stood out from the rest of the crowd.

Especially when you word it in a way that the police didn't even search them for weapons.

They were passing folks on a set of stairs that tried to stop them from looting. They said we're not antifa and kept on moving. I was watching 2 live feeds and saw no computers being moved or taken apart. This idea is not true and it's so when Pelosi is questioned about what she's done she can say... my computer was stolen.

It was probably why they let everyone in.

I think the rally was held to defend those who would have showed up naturally to protest without a rally. Imagine the false flag without the cameras and everything else going on. It probably saved lives.

Yes I watched this video an hour after it was released. I am convinced she is alive. There was stuff also about her retweeting lin wood the day of the 6th supposedly after she was "killed".

Also the Ashli Babbit "Shooting"

Ex Theater person here with experience in stage fighting, performance art, and martial arts.

It makes me sick to my stomach to write this. If I am wrong, I apologize to the spirit of Ashli and to her loved ones. But I have to share what I know about how these things are staged. Watch the video again in regards to the below.

1. The first issue we have here is audience control. Why are known members of Antifa allowed to stay near the "body" and film while Trumpers are waived back by the police? The "body" is effectively shielded from the audience by the police on one side and Antifa on the other. No Trumper actually allowed to get close enough to verify what's going on.
2. The second issue is Ashli's fall. From both my experience in stage fighting and martial arts, I know how you are supposed to fall. Ashli's fall is controlled. She DOES not hit her head as she lands. Imagine you have just been shot in the neck - how would you manage to have a controlled fall like that? How would your head not crack on the floor unless you hadn't been shot at all and were in full control.

2/19/2021 You guys remember when we were told to bring cameras and to have lots of different angles of the events on the 6th.. thank God we have video evidence...

3. Props and wardrobe. Props - Where is the blood? It should be everywhere. Wardrobe - this isn't proof but it's VERY convenient from a wardrobe perspective that her neck is fully covered, no one ever actually sees a wound.
4. We also should take Ashli's intelligence background into account.

I also don't want to discount that a true patriot was also possibly murdered but I will tell you this, I was at the capital building (not inside) for 3 hours with thousands upon thousands of people. At no point did anybody speak of a shooting. It was never talked about. Even my friends in completely different areas never heard about it until we got back to our hotels. We saw tear gas, we saw people who were pepper sprayed. This was common knowledge but not the shooting. The crowd was armed to the teeth. If a shooting would have occurred people would have moved in. I saw hundred of people with tactical backpacks continually keeping an eye out for any uptick in danger. I never heard a gun shot.

They didn't try specifically to push deep into the building to drag out reps which is what that group was kindof doing. They chanted Pelosipelosi as they went up the stairs. To those people in there, having NO IDEA about the situation outside of the building were probably shitting their pants

Was there on the back stairs and knew about it happening shortly after it occurred. Earliest message I can find telling someone is around 2:56pm. Some of the people who were with that group inside came walking by, after being forced out, visibly shaken, almost in tears and the guy said, "they just murdered an unarmed girl in there. They shot her in the face after breaking a window with a chair and trying to get through. She's lying dead in the floor." Really wasn't too far from the truth after seeing the video.

I believe you, I just don't understand why the message didn't get out, I walked around the capital for an hour and half after that and we never heard about it and we were talking with everyone and meeting new people. It was such a friendly scene. People were chilling all day.

For a crisis actor to appear on a lib show talking about it so quickly, and for it to never make it through the crowd that day?! To think I knew before people there... is highly suspect. If not down right proof to me.

A lot of those users are either fake accounts or are so corrupt they are terrified of Trump. You might want to take a step back from social media right now.

Oh I am hundred percent convinced that was staged. I'm an RN. She was shot with a glock .45 to the fucking neck. There would be blood fucking every where. Jugular and carotid are very hard to miss. The sheer utter calmness of the people not reacting to a gun going off in and chaos not ensuing. what happens when shots are fired normally people freak out. One of the cops who responds points down the hall and gives a thumbs up to someone who's a spotter. The actual shooter turns his gun away in the trajectory doesn't make any sense if she's hittbin the neck. There was a video with someone going over the shooting analyzing how it was fake that was posted on here

Pressure seems to be applied below collar bone.

<https://nypost.com/wp-content/uploads/sites/2/2021/01/protester-capitol-shot-dies.jpg>

I have made revisions to what I think happened regarding her shooting due to getting better info. I may be wrong now also, but I don't think she was shot in the neck. Blood comes out the mouth/nose with lung injury or esophagus injury iirc.

The thumbs up seems to be to indicate situation under control to someone on the other side - the shooter? Lots of these uniformed people have been under live fire before - they dont react to these things like I imagine I would.
